

WHY DO YOU WANT TO USE CANNABIS

Do you experience pain, nausea, or stress and are looking for a more natural way to relieve these symptoms? Or do you wish to feel the psychoactive effects associated with cannabis? Do you wish to smoke your cannabis, or are you looking for alternative methods of ingestion?

Every customer who come to Bloom Brothers should be thinking of these answers before arriving. By providing our budtenders with a brief introduction about what you are looking to get out of our products, it will help us lead you down the right path and ensure you have an enjoyable experience in our store and with the products you purchase.

WHICH PRODUCTS ARE RIGHT FOR ME

Here are Bloom Brothers, we pride ourselves for not only having high quality products and customer service, but also on the variety of products we offer. Not only can cannabis be smoked, it can also be digested through infused edibles, or applied as a lotion for pain relief. Cannabis attracts such a diverse group of consumers, we want to make sure everybody can find what they are looking for. In this pamphlet, you will learn about the variety of products we offer in our store, how to properly ingest each product, and what to expect in terms of effects and duration. Please do not hesitate to ask our budtenders for guidance when it comes to choosing which products are right for you, as it is our job to make sure you have the best experience possible!

WHICH PRODUCTS ARE RIGHT FOR ME?

See the chart below for the different methods of consumption we offer and what to expect from each.
Please do not hesitate to ask our budtenders for more assistance with choosing the right products.

METHOD	PRODUCTS	ATTRIBUTES	THINGS TO CONSIDER
Smoking	Flower	<p>This is the most traditional method where effects are felt almost immediately, within 2-5 minutes. Lasts for 1-4 hours</p> <p>Smoking devices generally are inexpensive, easy to clean and accessible.</p> <p>This method helps maintain the plant flavor.</p>	<ul style="list-style-type: none"> - Start with one inhalation - Distinct, strong aroma produced. - Burning at high temperatures may compromise the cannabinoid content of the plant. - Not recommended for individuals with respiratory issues.
Vaporizing	<p>Flower</p> <p>Vape Pens</p> <p>Concentrates such as wax, shatter, kief, and distillate*</p>	<p>Effects are felt immediately, within 2-5 minutes. Lasts for 1-4 hours.</p> <p>Easy dosing with some devices.</p> <p>Keep cannabinoids intact</p> <p>Little cannabis aroma without the burning smell of smoking</p>	<ul style="list-style-type: none"> - Start with one inhalation - Cartridge vaporizers require little to no maintenance, whereas flower vaporizers must be cleaned and can be more expensive. - *Concentrates have high THC content, resulting in a stronger, more pronounced, longer lasting effect. Consume responsibly.
Edibles	<p>Chews</p> <p>Bars</p> <p>Baked Goods</p> <p>Candies</p>	<p>Take 30 minutes-2 hours until onset. Long lasting effects for 6- 8 hours</p> <p>Ideal for individuals with respiratory issues</p> <p>Discreet, odorless, and tastes delicious</p>	<ul style="list-style-type: none"> - Start with 5 mg or less and wait two hours - Delayed onset, may require more trial and error to determine the appropriate dosing. Remember, Start Low and Go Slow
Tinctures	Tinctures	<p>Quicker onset if absorbed under the tongue, takes between 5-30 minutes.</p> <p>Steady, long-lasting effects for 1-6 hours</p> <p>No smell, discreet</p> <p>Easy Dosing</p>	<ul style="list-style-type: none"> - Start with 5 mg serving or less - Delayed onset when swallowed
Topicals	<p>Lotion</p> <p>Salves</p>	<p>Little to no psychoactive effects</p> <p>Easy application</p> <p>Discreet</p> <p>Long lasting relief</p>	<p>Start with 1-2 pumps on area that needs relief.</p> <ul style="list-style-type: none"> - Skin must be clean, dry and intact. - Not recommended for sensitive skin or on open wounds.
